

## Mohammad Alirezaeedizicheh

---

### Professional Summary

I am a dedicated and results-oriented Data analysis student with a solid foundation in programming and data analysis. With hands-on experience as an IT Operator/Assistant Manager in the IT services sector and as a Founder/Manager/Accountant of a successful boutique business, I have honed my skills in problem-solving, team leadership, and strategic planning. I thrive in collaborative, cross-functional environments and am eager to expand my knowledge of data extraction systems while working alongside experienced developers and data scientists.

---

### Education

IBS (International Business School) Budapest  
IT for business data analytics | 2022 - 2024  
(I am working on my thesis, and will graduate in Jan.2024)

Islamic Azad university
